SIMONE CERVINI

Via Jemolo 6, 20152, Milano, MI | simonecervini99@gmail.com | (+39) 351 817 0418 | cervini.github.io

Computer Engineering graduate, currently a Business Architecture Analyst at Accenture. Over the past year I have designed and delivered proofs of concept for a digital twin platform and worked on a microservices-based pilot for stablecoin payments. My background ranges from web application development to digital hardware design on FPGAs using VHDL.

SKILLS | VHDL, Java, React, JavaScript, C, Python, SQL, Thymeleaf, HTML, CSS

WORK EXPERIENCE

BUSINESS ARCHITECTURE ANALYST ACCENTURE
OCTOBER 2026 – PRESENT · APPRENTICESHIP

Development of an internal pilot project, based on a microservices architecture, enabling payment service providers (PSPs) to interact with stablecoins.

BUSINESS ANALYST ACCENTURE
OCTOBER 2025 – SEPTEMBER 2026 · INTERNSHIP

Design, development and delivery of five proofs of concept for a digital twin platform. Start of the development of an internal pilot project for the interaction of PSPs with stablecoins.

MATHS TEACHER IIS FALCONE-RIGHI
JANUARY 2022 – MAY 2022

Organization, planning and delivery of teaching for five classes at a high school.

EDUCATION

POLITECNICO DI MILANO, CAMPUS LEONARDO
BACHELOR'S DEGREE IN COMPUTER ENGINEERING
Among the courses covered: Logic Networks, Databases, Algorithms, Software Engineering, Transmission Devices, Computer Architecture and Operating Systems, Electronics and Electrical Engineering.

IIS FALCONE-RIGHI, CORSICO
HIGH SCHOOL DIPLOMA IN COMPUTER SCIENCE

PROJECTS

DIFFERENTIAL FILTER in VHDL
Design of a complex synthesizable component on FPGA, description in VHDL and creation of test benches for testing.

REINVENTORY in JavaScript (React), Tailwind, Firebase
Design, development, and distribution of a web app to support TTRPG campaigns.

DOWNLOAD ORGANIZER in Python
Development of a cross-platform tool that reorganizes the Downloads folder in the background according to customizable rules.

ERYANTIS in Java
Team design and development of the digital version of the board game Eryantis.
